WR – wrong side

### What you will need:

- 5mm crochet hook
- Tapestry needle
- Scissors

### Pattern notes

This square is worked in the C2C style in tr blocks, with each row running diagonally from corner to corner. When you're working an odd-numbered row, the side facing you is the RS (this will be the front when the design is complete).

To change colour seamlessly, if you are working with A, complete the last loop of your last st before the change, with B. It can be harder to conceal carried strands in C2C. Try using separate balls of yarn for each colour section, keeping the tails and any carried strands on WS (the side facing you when you work even-numbered rows).

Prepare 2 balls of each colour before you begin.

With A, 6 ch.
