Pattern notes

This pattern is worked bottom up. Use the chart and written instructions to create the tapestry crochet design.

Tapestry crochet

Tapestry crochet enables you to create coloured patterns within your crochet work. You will have more than one active yarn colour at any one time. The yarn colours which are NOT being used to work the current stitch are carried within your work by working the new stitch(es) over the top of them.

When changing colour pick up the new yarn colour on the last yarn over from the previous HTR stitch.

For example, to work a stitch in YARN A (Hot Pink) followed by a stitch in YARN B (Mustard):

With YARN A, yarn over, insert hook into next stitch, yarn over and pull up a loop, drop YARN A, yarn over with YARN B and pull through all 3 loops. You are now ready to work your next stitch with YARN B (the next stitch will now be worked over the top of YARN A yarn to carry the yarn not being used along your work).

To ensure that all yarns lay flat within your work, gently pull the non-active yarn before changing colour.

Using the chart as a guide, do NOT fasten off yarn colours at the end of the row if they are used again in the following row. Simply bring the yarn strands around as you turn your work and continue to work over the top of them in the following round.

If a row starts with a different yarn colour to that which finished the previous row, change colour with the last yarn over in the previous row.
